

DOUBLE DOWN ON SAFETY BY GOING ANTIMICROBIAL!

CHOOSE THE MATTING
WITH THE INDUSTRY'S #1
EMBEDDED* PROTECTION
AGAINST BACTERIA & FUNGUS

*NOT A COATING! ADDED TO PVC
BEFORE THE INJECTION MOLDING PROCESS

- Includes all the same standard ergonomic anti-fatigue and safety benefits as our other mats, and are interchangeable
- Excellent results in ASTM G21 and ISO 22196 testing (*see page 2*)
- Black tiles are environmentally sustainable, made of recycled PVC
- Ideally suited for any environment or facility that is concerned about cleanliness and the potential growth of bacteria, mold and fungus

ALSO AVAILABLE IN

3'x5' and 3'x8'

ERGOZONE WORKSTATION KITS

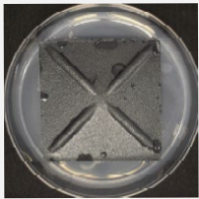

SKUs: AM2BZ2, AM2BZ3

PRE-PACKAGED & EASY-TO-INSTALL

Test Results

Performed by an independent research group and results verified by a microbiologist.

AMIB

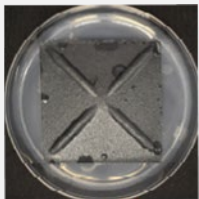

Competitor

ANTIMICROBIAL (ISO Method 22196)

99.9%

Ergo Advantage tiles showed an **average reduction in bacterial growth of 99.9%**

- Tile samples were tested for antimicrobial activity.
- Samples were treated with E Coli, Listeria, Staphylococcus and Salmonella. Left at optimum growth temp of 37°C for 24 hrs.

AMIB

FUNGAL (ASTM Method G-21-15)

100%

Ergo Advantage tiles were **100% free of fungal growth**. Three groups of mats were tested for resistance to mixed fungal growth (5 common types). These fungi were put on the mats and after 28 days were tested for fungal growth.

- Competitive antimicrobial mat had traces of growth.
